INTERESTS

Music, Cooking,
Photography, History

A short introduction

My name is Gabriel Ciprian and I'm a UI visual designer and front end developer currently working in Bucharest, Romania. Professionally, it's been an interesting journey to get here. It has involved a number of jobs like baker or teacher before discovering my real passion: design.

EDUCATION

Bachelor - Orthodox Theology

Bucharest University

This was a personal goal for me, ever since I was a teenager: to study and understand the orthodox theology and the religious phenomenon. I didn't do it for a career, but rather to study and understand.

EXPERIENCE

I have over 10 years of hands-on work experience in UI/UX design, rapid prototyping, and front-end development for rich Internet applications and mobile devices. I practice user centered design principles with a focus on user needs and business goals.

UI UX Visual Designer / **Prestimedia Bucharest**

2013 - Present

Specialized in online catalogs and mobile devices apps, prestimedia is one of the leading companies in Europe on this market. As the lead product designer, I drive the end-to-end user experience ensuring that we build the minimal viable product; incorporate user centered design techniques; and optimize the experience by analyzing usage data.

Major Projects:

- UI design for top clients in Europe that includes interactive catalogs, in-browser internal reports, online marketing brochures.
- UX research and wireframe, UI design, front end development and visual concepts for internal productivity tools, such as admins and team collaboration apps.
- UI design, UX research and wireframe, visual concept for automated app generating tool.
- UI design, UX research, wireframing and visual concept for automated app generating tool.
- Mobile Apps UI design and visual concept for top European companies like Vaillant, Vertbaudet or Cyrillus.

UI VISUAL DESIGNER + FRONT END DEVELOPER

EXPERIENCE

Interaction Design:

- Develop design solutions to elegantly solve key scenarios to solve user and business goals.

Front-End Development:

- Develop pixel perfect XHTML/CSS markup and UI controls with HTML5, CSS3 and JQuery.

Web and Visual Designer / Atisimo Romania

2008 - 2013

As the Web Designer I have the responsibility of creating simple and delightful user experiences utilizing principles of user-centered design. My goal is to deliver intuitive design solutions that help people and Atisimo achieve their goals.

Major Projects:

- Website design and development.
- UI design concepts for interactive catalogs.
- Branding materials for print and web.
- Custom flash animations

Junior Graphic Designer / @Advertising

2002 - 2003

Create graphic layouts for catalogs and brochures, pack design and image retouching, packaging design, indoor and outdoor ads.

PORTFOLIO PAGE 1

Grilldo Restaurant App Design

User interface of a mobile application or a web site is the part of design which combines a lot of various spheres of activity, including art, coloristics, logics and analysis.

PROJECT 1

February 2016

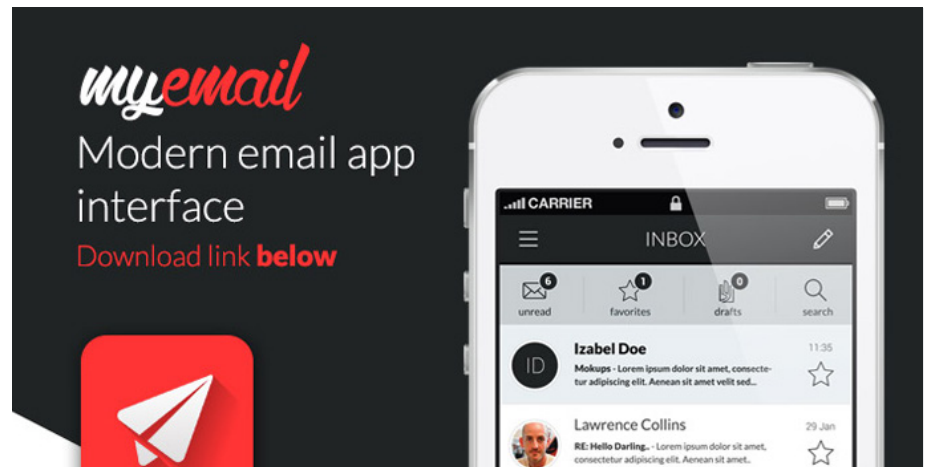

myEmail App Design

No doubt, this job being full of responsibility demands a lot of knowledge, inspiration and research from a UI designer.

PROJECT 2

PROJECT 3

Customer

01/03/2016

Barber Mobile App Design

Unlike many other industries, design community is all about sharing knowledge and experience. Each of us is very lucky to be part of such a great and useful learning environment, and it is up to us to embrace it.

Web Form Customizer

A small front-end web app, built to customize a web form. The tools used to build this includes HTML5, CSS3 and JQuery.

PROJECT 5

2011 - 2016

Various Projects

Many desperate acts of design (including gradients, drop shadows, and the gratuitous use of transparency) are perpetuated in the absence of a strong concept. A good idea provides a framework for design decisions, guiding the work.

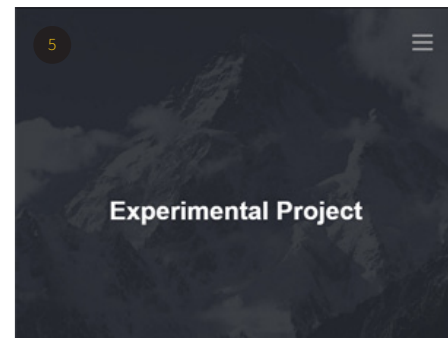

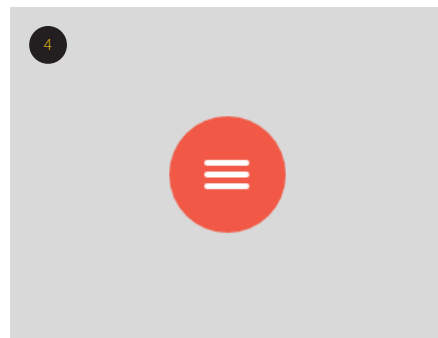

1 www.balan-andrei.com
Design concept and
wordpress integration.

2 d.concept brand identity
design.

3 RentVillas website design
concept.

4 Pure CSS3 morphing
animation menu button.

5 A very small CSS3 project to
demonstrate the power of
CSS animations
